

**Our Unique Fundraising Solution Turns Quality Clothing into Money for Your School**

Looking for a fundraising idea that is easy, green, and doesn't require students to be salespeople? Over 300,000 families nationwide have discovered Schoola's unique solution that has been praised as an "amazing mash-up of community building, upcycling and commerce."

- Parents love it because they can donate gently used kids and women's clothing by mail from home with free shipping, or participate in a school-wide clothing drive - either allows them to clean out their closet for the benefit of their school.
- Kids love it because they can track their school's fundraising progress on their school page, and it funds programs at schools that have seen severe budget cuts, such as art, music, field trips and P.E.

All clothing that we receive must be freshly cleaned and should not be damaged in any way. Please don't send us anything with:

- Fading
- Pilling
- Stretched or misshapen fabric
- Stains or discoloration of any kind
- Odors
- Rips, holes, tears, snags or runs in the fabric
- Missing or damaged fasteners: buttons, zippers, ties, hooks, snaps, etc.
- Missing manufacturer's tags
- Shrinkage
- Broken or stretched elastic in sleeves, waistbands, etc.
- Holes, scuff marks or worn-through areas in shoes and boots
- No decorations added after the item was purchased—including bedazzling, metal or rhinestone studs, fabric paints, embroidery, fringe, tie-dye or beading.

If an item wasn't of high enough quality to retail for over \$15 new, it is unlikely that we will be able to sell it in our resale marketplace. We can redistribute items like this and send about \$0.29 per item to your school, but we don't recommend that you send items like these since it often costs more to ship them than we can earn for them.
