Are you interested in an early bird class? _____

Art Elective Descriptions

Computer Graphics - \$25 elective fee

Students will learn the basics to create and edit art with Adobe Photoshop, Illustrator, and InDesign. Students will explore how to edit photography, create computer illustrations, and make layouts for projects such as posters, books, etc.

Printmaking - \$25 elective fee

Printmaking is a 2-D fine art media course. Students work with Intaglio, relief, and mono-printing processes. Printmaking helps students who are interested in developing observational drawing and color theory skills. Students work with still life, portraiture and self-motivated invented imagery. Students will learn to create editions of prints and develop their own style within the media.

Stagecraft II - \$25 elective fee

This course teaches the fundamentals of creating and recording music. This includes learning about audio, how to properly choose and use microphones, and how to use computer recording software. Students will learn out to connect cables properly, put effects and processes on recordings and make finished music productions.

Drawing and Painting - \$25 elective fee

Students will learn how to draw and paint from observation through use of still life, self-portraits, and landscape. Students will learn to use graphite, charcoal, and acrylic, but the majority of the course focuses on works created in oil paint.

Film/Video - \$25 elective fee

This course teaches the fundamentals of filmmaking and media literacy. Students will make short films, watch films, study the history of film, and learn how to spot fake news.

Ceramics - \$25 elective fee

The first ceramics course teaches the three basic clay building processes: pinch, coil, and slab building. With the three techniques students can execute their creative ideas into physical form using clay.

Sculpture - \$25 elective fee

Sculpture explores form through a wide variety of materials and mediums. The process starts with paper sketches, scaled models and then to the creation of full-size sculptures. The basic elements and principles of art and design are applied to create three-dimensional sculpture. A wide range of tools are used to manipulate various material. Some methods include: woodworking, metal casting, glass, plaster, carving, welding, plasma cutting steel and cold and hot forging.

Photography I & II - \$25 elective fee

Students will demonstrate knowledge of the equipment and materials of black and white 35mm film and printing processes through the production of photographic forms. Students will demonstrate and understand the basic aspects of photography as an artistic medium, critically view photographs in class discussion and critiques, and reference historical and contemporary photography within these discussions. Cameras are provided, but having your own 35mm SLR is an advantage. Expect to work at least an hour outside of class for each shooting assignment.

Theatre Movement - \$25 elective fee

Students who enroll in this beginning dance class need not have any prior experience or training. Students will spend one day engaged in beginning ballet, one day learning hip hop, two days learning tap, and one day observing dance film.

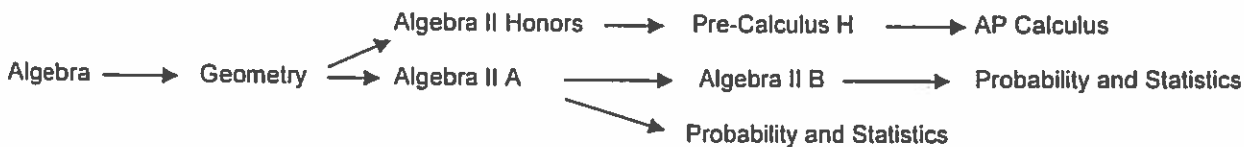

Graduation Requirements

20 credits + 18 points on the Ohio State Tests

Content Area	Number of Credits Required
Fine Arts/Electives	5 credits
English Language Arts	4 credits
Math	4 credits (including Algebra II)
Science	3 credits
Social Studies	3 credits
Health	½ credit
Physical Education	½ credit (2 semesters) or PE Waiver for 2 seasons of high school sport
20 Credits Minimum to Graduate	

Ohio State Tests		
English Language Arts I	English Language Arts II	<ul style="list-style-type: none"> • Maximum score on each test = 5 • 18 Points needed to Graduate
Algebra	Geometry	
American History	American Government	
	Biology	

Math Course Sequence

- Ninth grade students in need of extra support in Algebra I will be required to have an additional math lab period during the day.
- Geometry applications (sem 1) and Algebra applications (sem 2) are available for students who need to retake the OST tests

Social Studies Course Sequence

Science Course Sequence
